PRODUCT**COOL MEAL POUCH****DESCRIPTION**

Cool Meal Pouch is a bag with reflective surface to protect heat sensitive products against temperature, humidity changes and other external climate factors. Gusseted and flat bags can be produced with handle, ziplock and closure tape.

Thermo Bags with reflective outer surfaces can be produced in any dimensions, using various layer combinations such as single bubble, double bubble, or PE foam layers.

Benefits:

- Provides full protection against all temperature and humidity changes during transport;
- Maximizes customer satisfaction by preventing your products from melting and becoming deformed;
- Adds value to your brand with its printed and unprinted options.

APPLICATION

Food and Medical use

**TECHNICAL
