PRODUCT**SECURE PHARMA****DESCRIPTION**

The Bubble Envelope with adhesive flap offers a thermal protection solution for heat-sensitive and perishable products.

This thermal insulation bag is made of two layers of material: metallized PET and bubble wrap. The bag protects the products against external factors and the adhesive flap ensures quick and easy use.

The envelopes protect pharmaceuticals and food products.

Thermal bags provide short-term heat protection, liquid protection and puncture protection. They have a flexible and lightweight structure, they require minimal storage space and can be customized to any size.

Advantages:

- Provides short-term heat protection;
- Liquid protection and puncture protection;
- Flexible and lightweight structure.

APPLICATION

Food, Logistics, Medicine, Packaging, Storage and distribution;

- Food: Frozen products, dairy products, chocolate;
- Logistics: E-commerce;
- Medicine: Vaccines, serums, blood, other medical and pharmaceutical materials;
- In packaging, storage and distribution for all sensitive products.
